## Warning Lights

### LTE5101, LTE5101J, LTD 5101, LTE5161

Emitting colors - Red Yellow Green Blue

Operating Voltage- DC12V, 24V

AC36V, 48V, 110V, 220V, 380V

Light source- LED Strobe

Volume decibel - 110dB

Protection level-IP45

Dimensions -diameter  $\Phi 164\text{mm}$ ×Height 220 mm

#### Appearance Material

- Ultra-high brightness LED The light source has a service life of 50,000 hours, saves electricity, generates low heat, and requires no maintenance

- Always on, LED Rotation and flashing functions are optional
- Installation options: magnetic, bolt-on
- Flash frequency: 90-150 times /point
- The product can be equipped with a buzzer. Volume: 90 dB
- Material: Lampshade- AS, Base - ABS
- Protection level: IP45
